
Logosynthesis Basic Level Training

Healing with Words

Logosynthesis

Logosynthesis is a relatively new innovative and comprehensive system for guided change. It is comprised of a model and a unique method embedded in a coherent, holistic view of human nature that enables us to reconnect to our truest being and reduce pain.

Logosynthesis combines concepts from energy psychology, psychotherapy and other modalities with the ageless wisdom of healing through the intentional use of words.

It is effective and easily applied within the fields of counselling, psychotherapy and coaching. It can also be used for self-help.

Logosynthesis supports people in overcoming grief and traumatic memories. A variety of conditions such as anxiety, depression, burn-out, fear and physical symptoms can be reduced. As a result, life energy is focused on the here-and-now.

Logosynthesis allows for the recognition and systematic resolution of self-limiting patterns. In everyday life it helps people to solve problems around the recognition and attainment of life goals, relationships, work satisfaction and all that life can offer.

Founder

Logosynthesis was created and founded in 2005, by Dr. Willem Lammers. He is a psychologist, psychotherapist and a highly respected consultant to people and organizations. He is also the founder and director of the Institute for Applied Social Sciences in Switzerland. Dr. Lammers has been investigating the connections and boundaries of body, mind and soul for the last 40 years. He works in his own practice in Bad Ragaz, Switzerland and teaches Logosynthesis all around the world. He has published seven books and many articles about his work.

Participants

Logosynthesis training is intended for Professionals and full-time student in the helping fields such as counselling, social work, psychology, psychotherapy, education, supervision, psychiatry and coaching. Others, who are a member of a regulating body, may also be eligible.

The Basic Training

This three-day seminar introduces the theory, the model and the method. The material will be presented through lectures, power point, live demonstration and experiential exercises. Participants will be given ample opportunity for discussion and supervised practice. At the end of the three days, you will be able to apply the basics of this state-of-the-art method in your work with your clients or on yourself, within the context of your professional practice and theoretical framework.

The Basic training is a foundational training that allows you to begin to use Logosynthesis in your practice. It is both a prerequisite to becoming a Certified Practitioner, and to accessing a growing number of Advanced Training workshops, as well as online support. Further training is available to deepen and refine your use of the method, your grasp of the principles, and the scope of your practice with it.

Practitioner Certification The curriculum for the certificate "Practitioner in Logosynthesis" comprises the attendance of Logosynthesis Basic, Logosynthesis Live, two Supervision days and two Advanced seminars. It is concluded with a written case study. Certified Practitioners are entitled to use the title and are listed on the website.

Further Education

The Institute for Logosynthesis offers training for the level of Practitioner, Instructor, Master Practitioner and Trainer.

Imagine being able to help clients rapidly:

- Change lifelong thinking patterns that limit growth;
- Learn to calm anxiety and upsets;
- Resolve emotional trauma without being re-traumatized;
- Remove the blocks that interfere with accomplishing goals; and
- Become less reactive to difficult situations.

Program Facilitator

Trish North RCT, CCC
From her introduction to
Logosynthesis in 2006, Trish has been
committed to the teaching of this innovative
system that supports healing at the deepest
level of our existence. She is an
international Logosynthesis trainer and
supervisor, as well as the Director of
Logosynthesis Canada. In addition to
managing and delivering training locally,
Trish has taught Logosynthesis in the
United States, South America, Switzerland
and the Netherlands. She also maintains a
private psychotherapy practice in Halifax.

*"I recently had a few therapy sessions with
Trish and was introduced to Logosynthesis. It
was one of the most effective approaches for
healing emotional issues I have ever
experienced. The immediate results allowed
me to gain back my emotional freedom and
personal power. I highly recommend it." D.D.*
